GREETINGS! NGĀ MIHI!

In a few weeks' time, Holy Trinity will be farewelling our talented Events and Marketing Manager Maria Beer. She has been the organising force behind a very large number of external events which are held at the cathedral in the many spaces we offer for those who are looking for a suitable venue for prize-givings, concerts, and social events large and small. In her time with us, Maria has done an exceptional job attracting new bookings, while also keeping regular users happy with the service provided by her team of events staff.

The roster of bookings, which gets especially busy towards the end of the year, provides an important source of income which supports the cathedral, so we're extremely grateful for her contribution. The period of Covid lockdown interruptions proved to be a real test of how much clients value the different venues our precinct provides, as the bookings came back thick and fast after restrictions were lifted.

Maria, who is taking up a new role in the Bay of Islands, goes with our thanks and very best wishes for the future.

Warden

Theology & Science

Themes in Contemporary
Science Fiction

MacLaurin
Chapel

August
9, 16, 23 & 30

All science fiction is theological in that it tests and reflects on what it means to be human, the problem of evil, and how we do and should live together. As a genre science fiction acts like a Trojan Horse, opening up worlds where good and evil are meaningful categories, where new technologies enhance and threaten our way of life, and where the theological categories of humanness and hope and moral action are explored.

The four Winter Lectures this year will explore these themes.

WEEKLY PRAYERS

when the waters of the deep are broken up,

come to us across the water;
for the glory of your holy name.

May the departed rest in peace and rise in glory.
